CHAPTER 11 RULES

Sections:

11.1 Purpose.
11.2 General Rules.
11.3 Rules for Interpretation of the Boundaries on the Official Zoning Map.
11.4 Rules for Construction of Language.
11.5 Severability.

11.1. Purpose.
The purpose of this chapter is to establish general rules for the application of this Zoning Ordinance. The meaning and construction of words and phrases defined in this chapter apply throughout this Ordinance. Definitions of general terms and rules for measurement are presented in Article 9, Definitions and Rules of Measurement.

11.2. General Rules.

1. Applicability to Roads, Streets and Rights-of-Way. A road, street, utility easement, or other right-of-way is considered to be in the same zoning district as the abutting land. Where land on one side of a public road, street, utility easement, or other right-of-way is classified in a different zoning district from land on the other side, the centerline of the road, street, utility easement, or other right-of-way is the zoning district boundary unless otherwise depicted on the Official Zoning Map.

2. Compliance Required. No person, firm or entity may use, occupy, or develop land or structures, or any part thereof, or authorize or permit the use, occupancy, or development of land or structures under the control of such person, except in accord with all applicable provisions of this Ordinance.

3. Lot of Record. Every building hereafter erected, reconstructed, converted, moved, or structurally altered shall be located on a lot of record, with the exception of residential additions and accessory structures. There may be more than one principal building or use on a lot of record provided, however, that each such principal use shall be assessed density of residential use or intensity (measured as floor area ratio or F.A.R.) of non-residential use.

4. Uses of Vacant Land.

a. Where a lot is to be occupied for a permitted use without buildings, the yards required for such lot shall be provided and maintained unless otherwise stipulated in this Ordinance, except that side yards shall not be required on lots used for accessory purposes without buildings or structures or on lots used for public recreation areas.

b. Accessory type uses on vacant lots may be permitted as principal structures subject to the provisions of this ordinance and the zoning district in which the property is located.

5. Conflict with Other Laws and Regulations. Where a conflict occurs between this Ordinance and a state statute or another county ordinance or regulation, the more restrictive provision shall control.

6. Relation to Deed Restrictions and Other Private Agreements. This Ordinance does not abrogate or annul a private easement, covenant, agreement, deed restriction, recorded plat or other restrictive covenant. If, however, this Ordinance imposes a greater restriction than that imposed by such easement, covenant, agreement, recorded plat, deed restriction, or other restrictive covenant, this Ordinance shall control. In no circumstances, however, shall the County have any obligation to enforce a restrictive covenant, easement, or equitable servitude, not required as a condition of approval for any development activity or land use.

7. Relation to Prior Regulations. This Ordinance does not validate or legalize a land use or structure established, constructed, developed or maintained in violation of a prior ordinance, county resolutions or ordinances, easements, covenants, agreements, plots, deed restrictions or other restrictive covenants running in favor of the County in effect prior to the effective date of this Ordinance.

11.3. Rules for Interpretation of the Boundaries on the Official Zoning Map.
Where uncertainty exists regarding the boundary of a zoning district on a zoning map, the following rules shall apply:
1. A zoning district boundary shown as approximately following a property line shall be construed to follow that property line.

2. On unsubdivided land, or where a zoning district boundary divides a lot, the location of the zoning district boundary shall be determined by using the scale appearing on the Official Zoning Maps, unless the zoning district boundary location is indicated by dimensions printed on the zoning map. In case of conflict between printed and scaled dimensions, the printed dimension shall control.

3. A zoning district boundary shown as approximately following the right-of-way line of a highway, alley or railroad or a stream, river, irrigation ditch or other identifiable boundary line shall be construed to follow such right-of-way line or physical feature.

4. A zoning district boundary shown as lying within, but not contiguous to, a right-of-way line of a public road, street, alley, railroad, or other identifiable boundary line shall be construed to follow the centerline of the right-of-way or boundary line.

5. If uncertainty remains as to the location of a zoning district boundary or other feature shown on a zoning map, the location shall be finally and conclusively determined by the Director of the St. Mary’s County Department of Land Use and Growth Management, whose decision shall be subject to appeal to the Board of Appeals.

6. Where a property is split by a zoning boundary including special districts, the rules of the zone shall apply to that portion of the land located in each district.
