Exhibit A-1 Email dated 8/14/04 from Mike Hewitt with questions for MTA
Exhibit A-2 Email dated 8/16/04 from MaryAnne Polkiewicz to acknowledge receipt of questions
Exhibit A-3 Email dated 10/8/04 from MaryAnne Polkiewicz answering questions from 8/14/04 email

A public hearing was held on August 12, 2004. At that meeting, the Board granted a continuance until October 14, 2004 to allow the applicant time to address the traffic concerns of the Board members.

Ms. Polkiewicz explained that additional data has been collected since the 8/12/04 hearing. MTA has been to the site on two different evenings and one morning, during peak hours, to do traffic counts at the intersection of MD Route 5 and MD Route 6. Mr. Feske explained that they also looked at bus schedules and bus ridership, to update their analysis based on the latest information available. There were two further meetings with State Highway Administration (SHA) and Department of Public Works & Transportation (DPW&T) to review the results of the additional analysis and to discuss the proposals worked out jointly with SHA and DPW&T to address these issues.
The mitigation measures addressed in the staff report are expected to get the level of service at the intersection to the same level of service the intersection would have without the addition of the park and ride lot in that location. In recent meetings, SHA expressed a concern with the backups southbound on MD Route 5 turning left onto eastbound MD Route 6. MTA has agreed to extend the left turn storage lane on southbound MD Route 5, later noted as option 1. Other improvements were considered, especially along the median portion of MD Route 6 between the northbound and the southbound lanes of MD Route 5. According to the analysis done, the necessary road widening which would be required to go along with this possible improvement would not improve the level of service at the intersection, but would add significant cost to the project.

The Chair opened the hearing to public comment.

Robert Gleske, a resident of the Golden Beach area, spoke in support of the proposed New Market site. He said that this site is better for the community as a whole than a site in the Golden Beach area.

The hearing was closed to public comment.

Mr. Callaway moved, and Ms. Underwood amended, that having made a finding that the Conditional Use Standards of Section 25.6 of the St. Mary’s County Comprehensive Zoning Ordinance have been met, the Board grant Conditional Use approval for a commercial parking facility pursuant to Chapter 25 of the St. Mary’s County Comprehensive Zoning Ordinance, subject to the conditions stated in the staff report and with the condition that the lane structure be as depicted on option 1. The motion and amendment were seconded by Mr. Delahay and passed by a 3-2 vote.

The property contains 792.836 acres, is zoned Rural Preservation District (RPD), and is located on the west side of McIntosh Road approximately 3,800 feet southeast of MD Route 235 in Hollywood, MD; Tax Map 19, Block 18, parcel 59.

Owner: Robert S. Gollahon
Present: Gorman E. Getty, III, representing Robert Gollahon
Heidi Dudderar, Assistant County Attorney, representing St.
Mary’s County
Joseph R. Densford, representing the Board of Appeals

This public hearing was duly advertised and receipts from certified mailings are on file at LUGM.

County Attorney, John B. Norris, III left the hearing to avoid any appearance of a conflict of interest.

It was determined prior to the hearing that the focus of this case for the meeting on October 14, 2004 would be the appropriate procedures and scope of the remand to the Board, in light of the Court of Special Appeals’ ruling. The Board of Appeals made the decision to hear the McIntosh Subdivision Appeal themselves, rather than remanding the appeal back to the Planning Commission. The decision was made that the applicant’s case will be heard first, and will be followed by the County’s presentation of their case. Video tapes from the previous hearing, and
the court order, will be studied by the Board members prior to the beginning of the evidentiary hearing. The appeal has been scheduled to begin at 6:30 p.m. on the following dates:

Tuesday, December 7, 2004,
Wednesday, December 8, 2004, and
Thursday, December 9, 2004

An alternate site was given as the Higher Education Facility at the airport, in case Room 14 of the Governmental Center is not available on Tuesday, December 7, 2004.
