

The global situation has put a damper on the 2W6 50th Anniversary celebration, but we're able to adapt for some events! The free live seminar on the WINGS Pilot Proficiency Program planned for March 14th has been rescheduled as a free online webinar, and is coming up soon.

You're probably not flying as much as you'd like these days. Now more than ever, it's important to think about pilot proficiency for the time when we are able to fly more regularly again.
