

Reduce

The greatest relief of our solid waste burden can be made by **AVOIDING** waste in the first place. Before you make a purchase, consider the waste you might be creating. Try to buy in bulk (save packaging) or try to buy just enough (so you don't have to discard the last little bit). Can you rent? Can you share?

Use the directory to help you buy reusable goods. Remember that yard sales, pawnshops, classified ads, auctions and antique stores are also excellent sources of reusable goods. It is important to "close-the-loop" and buy products made from recycled material.

Recycle

If you must discard something, you can recycle glass, plastic, steel and aluminum containers, newspapers, magazines, mixed paper, cardboard, electronics textiles, rechargeable batteries, used motor oil, oil filters, anti-freeze, and even oyster shells at the County's six (6) convenience centers. Yard waste, white goods, scrap metal, large cardboard, bulky plastic, and tires are accepted at the St. Andrews Landfill.

This edition of the directory was created with the assistance from businesses and organizations in St. Mary's County

For additional information on Solid Waste and Recycling please contact:

St. Mary's County
Department of Public Works
& Transportation
